

Bonaire's finest

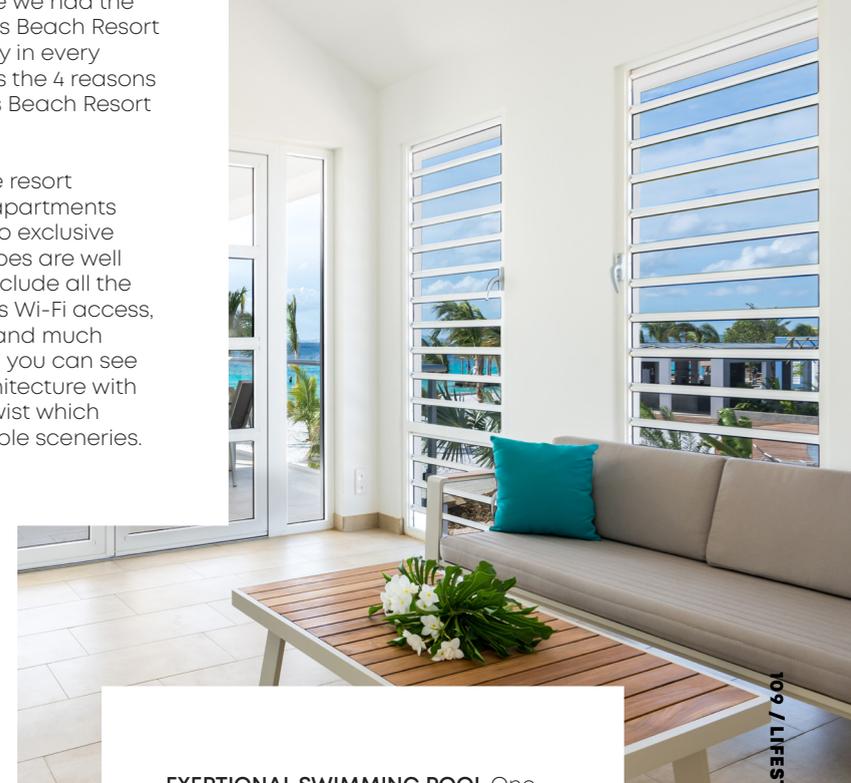

From sleeping in luxurious studios with picturesque ocean views to dining at tropicana bar... Fresku discovers Bonaire finest, Delfins Beach Resort

EXCELLENT LOCATION Delfins Beach Resort is located at "Punt Vierkant" which is just 5 minutes from Bonaire's International airport and right by the island's beautiful turquoise sea. The beachfront resort provides an infinite ocean view and the possibility to experience the most perfect sunset. The premises are also surrounded by green gardens which provides the ideal environment to unwind.

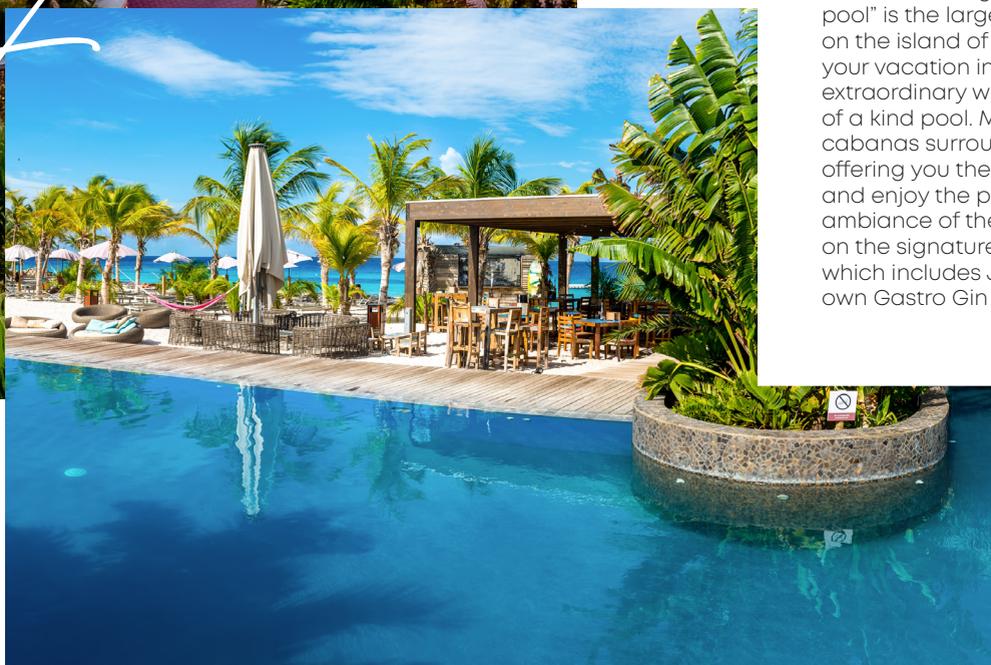

Our fashion serie "On the go, on a strole + out and about" was shot on the beautiful island of Bonaire. While we were there we had the opportunity to stay at Delfins Beach Resort where we experienced luxury in every sense and form. Here follows the 4 reasons why you should book Delfins Beach Resort for your next trip to Bonè.

MODERN ARCHITECTURE The resort features a variety of luxury apartments ranging from studios, villas to exclusive penthouses. The six room types are well decorated, spacious, and include all the necessary amenities such as Wi-Fi access, equipped kitchen facilities, and much more. Throughout the resort, you can see modern European style architecture with an enchanted Caribbean twist which creates perfect instagramable sceneries.

EXEPTIONAL SWIMMING POOL One of the main attractions of Delfins is the swimming pool. The "Magna pool" is the largest swimming pool on the island of Bonaire. Trust us, your vacation in Bonaire will feel extraordinary with a dip in this one of a kind pool. Moreover, Lavish cabanas surround the "Magna pool" offering you the opportunity to rest and enjoy the peaceful ambiance of the resort while sipping on the signature Delfin's cocktail which includes Johnnie Boer's very own Gastro Gin from the pool bar.

CLUB TROPICANA With a pool bar connected to the bar, you can enjoy your drinks in the swimming pool. Soft lounge music will accompany any of your ordered drinks or food. We enjoyed the signature cocktail, made with Jonnie's own Gastro Gin and is a must-have while visiting Club Tropicana. Top-quality food is guaranteed as Jonnie and Theresa Boer, owners of the famous restaurant De Librije in the Netherlands, personally trained the chefs of the resort. With an extensive menu and lots of seats in the shade, you are sure to embrace a break from the sun while keeping your feet in the warm sand of the beach. The menu consists of several well known all-time favorite beach bar foods like a hamburger or a salad but always done on the Jonnie Boer way.

New in town

Calling all Coffeeholics! We have selected 3 of the coolest coffee spots on our little island just for you.

By Gyoni Jamanika

PAKAYA

Noticing that there weren't any to go or pick-up only coffee spots on the island, the owners decided to create their own. Pakaya, or Pa Kaya, translates to for the road, and that's precisely what their products are meant for. The coffee bar is a place where you can come in and get your coffee without having to think about what to wear. As Pakaya caters to those who are on the go, there is no seating area or lounge inside. Their mission is to embrace everything that has to do with the Curaçaoan culture. With the focus on quality, not quantity, their drink menu is limited to the classics such as cappuccino, iced latte, and espresso macchiatos. They also make non-caffeinated drinks such as homemade aw'i lamunchi, cold brew and iced tea.
